

10-MINUTE WAREHOUSE SAFETY WALK

A fast, practical check for hazards that can lead to serious injuries, equipment damage or lost productivity.

DATE / TIME	AREA / DEPARTMENT	WALK COMPLETED BY	WITH

Walk the area with fresh eyes. Check what you see — and what employees have learned to work around.

CHECK	WHAT TO LOOK FOR	OBSERVATION / ACTION
☐	Where do forklifts and pedestrians cross paths?	
☐	Where are blind intersections?	
☐	What could a forklift strike?	
☐	Where are employees manually lifting, reaching or bending?	
☐	Are dock positions protected when trailers aren't present?	
☐	Are racks, columns and equipment protected from impact?	
☐	Are traffic lanes clearly marked?	
☐	Are there areas where employees routinely take shortcuts?	
☐	Have workflow or equipment changes created new risks?	
☐	What safety issue has your team talked about but hasn't solved?	

TOP PRIORITY TO ADDRESS: What did we see today that could seriously hurt someone if nothing changes?
